"Excellent service by Fernando. Also, follow up assistance provided by Joe Payne was outstanding. Professional, well-informed and friendly service."

-Constance T.

★★★★★

Our Customer's Reviews

Our customers love their LifeSource Water and so will you! Browse through their reviews.

The Most Recommended Water System in America

4.8 **Overall Rating**

★★★★★ Reviews

★★★★★

Luis was very quick, efficient, friendly as well as easy to communicate with. He explained everything clearly; he did a great job!

Evan and Amanda Cascio
MANHATTAN BEACH, CA

★★★★★

I should say we are very happy so far with our LifeSource System water system. Just the taste alone difference is amazing.

Bethany Carfaro
CAMARILLO, CA

★★★★★

LifeSource is the best. I own a Cafe in Oxnard. We wash all our fruits and vegetables in LifeSource water and they stay fresher longer.

Cynthia Zola-Neftan
OXNARD, CA

Taste and Feel The Difference

Our water filtration systems prevent scale build-up. A LifeSource whole house water system produces clean water that tastes and feels great... Our whole house water filters do not use salt and are environmentally friendly. The best part? Our systems are 100% maintenance free.

Our Technology

How LifeSource Water Systems Work

Our eco-friendly systems transform your tap water into great-tasting, filtered water from every tap. Reduce hard water buildup without using salt or additives. Our systems are easy to use and don't require monthly maintenance or exchange programs. Eliminate your need for bottled water and reduce water waste with a whole house water system.

Drink, cook, bathe and clean with water that is good for you and your home. For optimal water treatment, we suggest our Ultimate Protection Package, which combines our water filtration, water softener alternative ScaleSolver system and anti-bacterial filter unit.

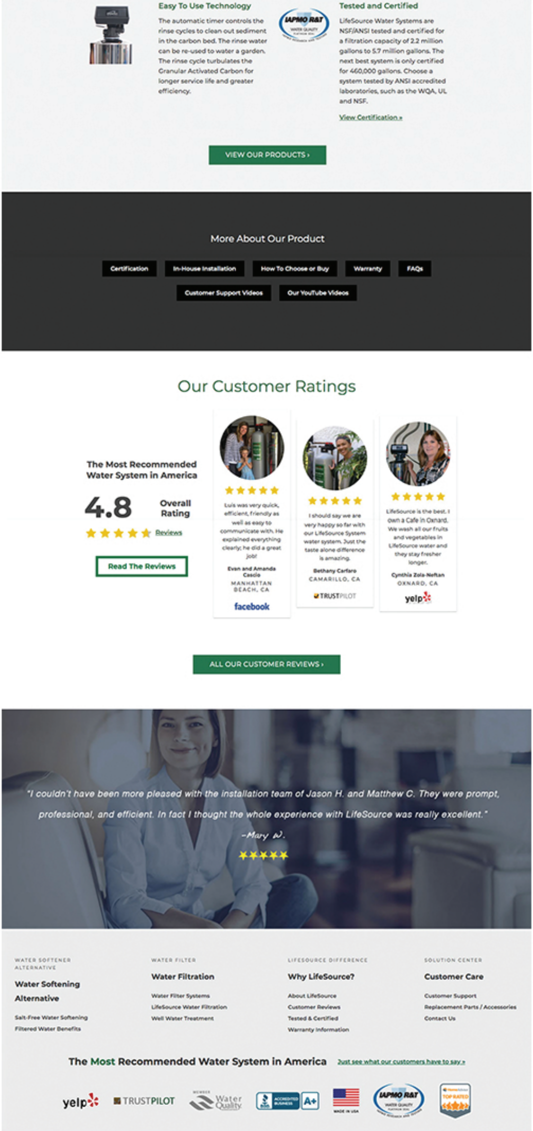
High Grade Granular Activated Carbon

We feature a proprietary blend of coconut shell granular activated carbon. It effectively reduces the chlorinated taste and odors of chlorine.

Salt-Free Hard Water System

Get fresh odor-free water, softer skin & hair with our advanced water conditioning.

View Product »



Easy To Use Technology

The automatic timer controls the rinse cycles to clean out sediment in the carbon bed. The rinse water can be re-used to water a garden. The rinse cycle turbulates the Granular Activated Carbon for longer service life and greater efficiency.

Tested and Certified

LifeSource Water Systems are NSF/ANSI tested and certified for a filtration capacity of 2.2 million gallons to 5.7 million gallons. The next best system is only certified for 460,000 gallons. Choose a system tested by ANSI accredited laboratories, such as the WQA, UL and NSF.
